Art Unit: 1644

### DETAILED ACTION

1. Please note the examiner of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Phuong N. Huynh, Art Unit 1644, Group 1640, Technology Center 1600.

2. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.F.R. 1.821(a)(1) and (a)(2).

However, this application fails to comply with the requirements of 37 C.F.R. 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Applicant is reminded to amend the specification and the claims to indicate SEQ. ID NOS.

3. Applicant's preliminary Amendment (Paper No. 2), filed on 5/22/00, is acknowledged. Claims 1-13 are pending and under consideration in instant application.

### *Election/Restrictions*

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4, and 12-13, drawn to a recombinant polypeptide cytotoxic T lymphocyte vaccine, classified in Class 530, subclass 350.
  - II. Claims 5-11, drawn to polynucleotide, nucleic acid vaccine, vector, classified in Class 536, subclass 23.1, subclass 24.1, and Class 435, subclass 69.1, subclass 254.2, subclass 419, and subclass 325.

The inventions of Groups I-II are distinct, each from the other because of the following reasons:

Groups I-II encompass separate and distinct products (DNA versus polypeptide). Polypeptide and DNA differ with respect to their physiochemical properties, structures and mode of action. A person of ordinary skill in the art would not envision one in view of the other and therefore they are patently distinct.

Art Unit: 1644

5. Because these inventions are distinct for the reasons given above and the searches are not co-extensive, restriction for examination purposes as indicated is proper.
6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (703) 308-4844. The examiner can normally be reached Monday through Friday from 8:00 am to 5:00 p.m. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.
9. Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 305-3014.
